DETAILED ACTION

Notice to Applicant

1. This communication is in response to the Arguments and Explanations filed on 04/27/05. Claims 1-12 are pending.

Claim Rejections - 35 USC § 103

- 2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:
- (a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.
- 3. Claims 1-12 are rejected under 35 U.S.C. 103(a) as being unpatentable over Baer et al (6,611,840) in view of Morgenthaler et al (2002003277), for substantially the same reasons given in the previous Office Action.

Response to Arguments

Application/Control Number: 09/660,852 Page 3

Art Unit: 3626

4. Applicant's arguments filed on 04/27/05 with respect to claims 1-12 have been fully considered but they are not persuasive. Applicant's arguments will be addressed hereinbelow in the order in which they appear in the response filed on 04/27/05.

- (A) At pages 1-4 of the 04/27/05 response, Applicant's present the following arguments and explanations by showing various Exhibits as proof.
- (B) With regard to Applicant arguments, Examiner respectfully states that (a) Applicant does not clearly show at best how to undertake an activity; work pattern describing a response to a project management situation and having threads throughout said plurality of process listings; said documents describing items used to manage a project; word processor templates for said work product documents, describing plans, procedures, and records; and procedures for said process listings as claimed in claim 9. These specific features in claim 9 are not described and not disclosed in any of the submitted Exhibit. Therefore, it is unclear if Applicant reduce to practice the claimed invention as claimed in claim 9.

Furthermore, Examiner notes on page 2 of the Sue Davis, the Email indicates that the product was still underdevelopment (12/08/99). This further indicates that Applicant had not reduced to practice the claimed invention as argued.

Since the declaration was insufficient, Applicant's argument directed to the rejection of the claims 1-12 and the Exhibits in the previous Office Action was based on the submission of the combination of the references cited above to reject the claims.

Therefore, Applicant's argument is not persuasive and the rejection is made final.

Art Unit: 3626

5. THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
